

**Cornerstone**  
Christian College

Dear Parents

In 2016 the College implemented a Bring Your Own Device (BYOD) programme for Year 10,11 and 12 students. This programme involved families purchasing a laptop device to be used both in the classroom and at home. Current Year 10 and 11 students have already purchased a BYOD device. For students starting Year 10 next year this letter outlines the minimum specifications and limitations of the device you will require. This letter serves as advanced warning so you are able to plan ahead and possibly purchase a device for your child as a birthday or Christmas gift.

Verification of new devices will take place as soon as possible at the beginning of the school year and will involve students presenting their devices to the I.T. staff to ensure that it meets the standards required for their Educational course and that it also adheres to the limitations necessary in order for the college to ensure the student community's privacy and digital safety is maintained. **Devices that have the ability to utilise a SIM card will be refused.**

If you require any more information please don't hesitate to ask. My details are provided if you would like any help with regards to certain aspects of the program.

Thank you for your time and support,

Regards,

Eric Moorcroft  
IT Manager
